

Math 9
Chapter 5 ~ Algebra

Learning Outcomes ~ Student can:	
A1	solve simple, multi-step, one-variable linear equations (variable on one side, no distribution).
A2	solve multi-step, one-variable linear equations that involve distribution and combining of like terms.
A3	model and solve problems using linear equations.

Date	Topic
Monday, April 15	Lesson 1 ~ One-Step Solving Equations
Tuesday, April 16	Lesson 1 (continued)
Wednesday, April 17	Quiz: One-Step Solving Equations Lesson 2 ~ Two-Step Solving Equations
Thursday, April 18	Lesson 2 (continued)
Monday, April 22	Quiz: Two-Step Solving Equations Lesson 3 ~ Distribution & Like Terms
Tuesday, April 23	Lesson 4 ~ Solving Equations with Distribution & Like Terms
Wednesday, April 24	Lesson 4 (continued)
Thursday, April 25	Quiz: Solving Equations with Distribution & Like Terms Lesson 5 ~ Translating English into "Math"
Friday, April 26	Lesson 6 ~ Solving Word Problems with Algebra
Monday, April 29	Lesson 6 (continued)
Tuesday, April 30	Quiz: Solving Word Problems with Algebra Lesson 7 ~ Solving for "y"
Wednesday, May 1	Algebra Review
Thursday, May 2	Algebra Review
Friday, May 3	Algebra Test
